

PERSONALITY PORTRAITS

Mason Photography, originator of the 'personality portrait'

Forget those plain black and white portraits that don't allow your personality to shine through. This is a portrait to define who you are, all those things that make up your unique personality.

Other portrait studios say 'classical' but that really means boring. Personality portraits are bright, colourful, dynamic & define who you are right now. Capture this unique time in your child's life, it is like a photographic stamp of who they are and in time they will look back nostalgically with fond memories.

\$200 for studio shoot (plus an additional \$50 styling cost)
